PROJECT REPORT

Submitted by: Weilamangdor kharlor

Roll no: p1400036

Reg no: 14542 of 2013-14

Project Guide: Miss I Kharmawphlang

DEPARTMENT OF COMPUTER SCIENCE AND APPLICATIONS

SHILLONG COLLEGE

BONAFIDE CERTIFICATE

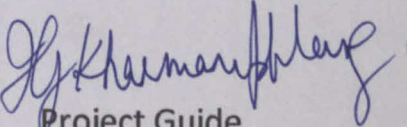

Name: Weilamangdor kharlor

Roll no: p1400036

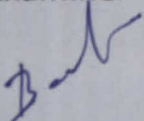

Reg no: 14542 of 2013-14

Title: Hostel Management System

This is to certify that the project work entitled Hostel Management System is a bonafide work done by Weilamangdor kharlor bearing Roll no p1400036 for the academic year 2015-2016 submitted for the partial fulfillment for the award of degree of Bachelor of Computer Applications (BCA)

Project Guide

Examiner

Head of Department

ACKNOWLEDGEMENT

It is my privilege to express my sincerest regards to my project coordinator, Miss I kharmawphlang for her guidance, encouragement and whole-hearted cooperation throughout the duration of my project.

I deeply express my sincere thanks to our Head of Department Miss A mitri for encouraging and allow me to present the project on the topic "Hostel Management System" at our department premises for the partial fulfillment of the requirements leading to the award of BCA degree.

I also express a deep sense of gratitude to my friends, my family members for their support and especially to GOD Almighty who constantly guided me in my life.

SYNOPSIS

Title: Hostel Management System

This system is designed in favor of the hostel management which helps them to save the records of the students and retrieve where ever is necessary. It helps them from the manual work from which it is very difficult to find the record of the students and the mess bills of the students.

We design this system on the request of the hostel management, through this they cannot require so efficient person to handle and calculate the things.

PROPOSED SYSTEM

- It is a computerized system
- It can store record or data of students in this system instead of a file
- Easy to retrieve data or record

HARDWARE AND SOFTWARE REQUIREMENT

Software:

Language: java

Front end: jsp, javascript, css

Back end: Mysql

Tools: NetBeans, jdk

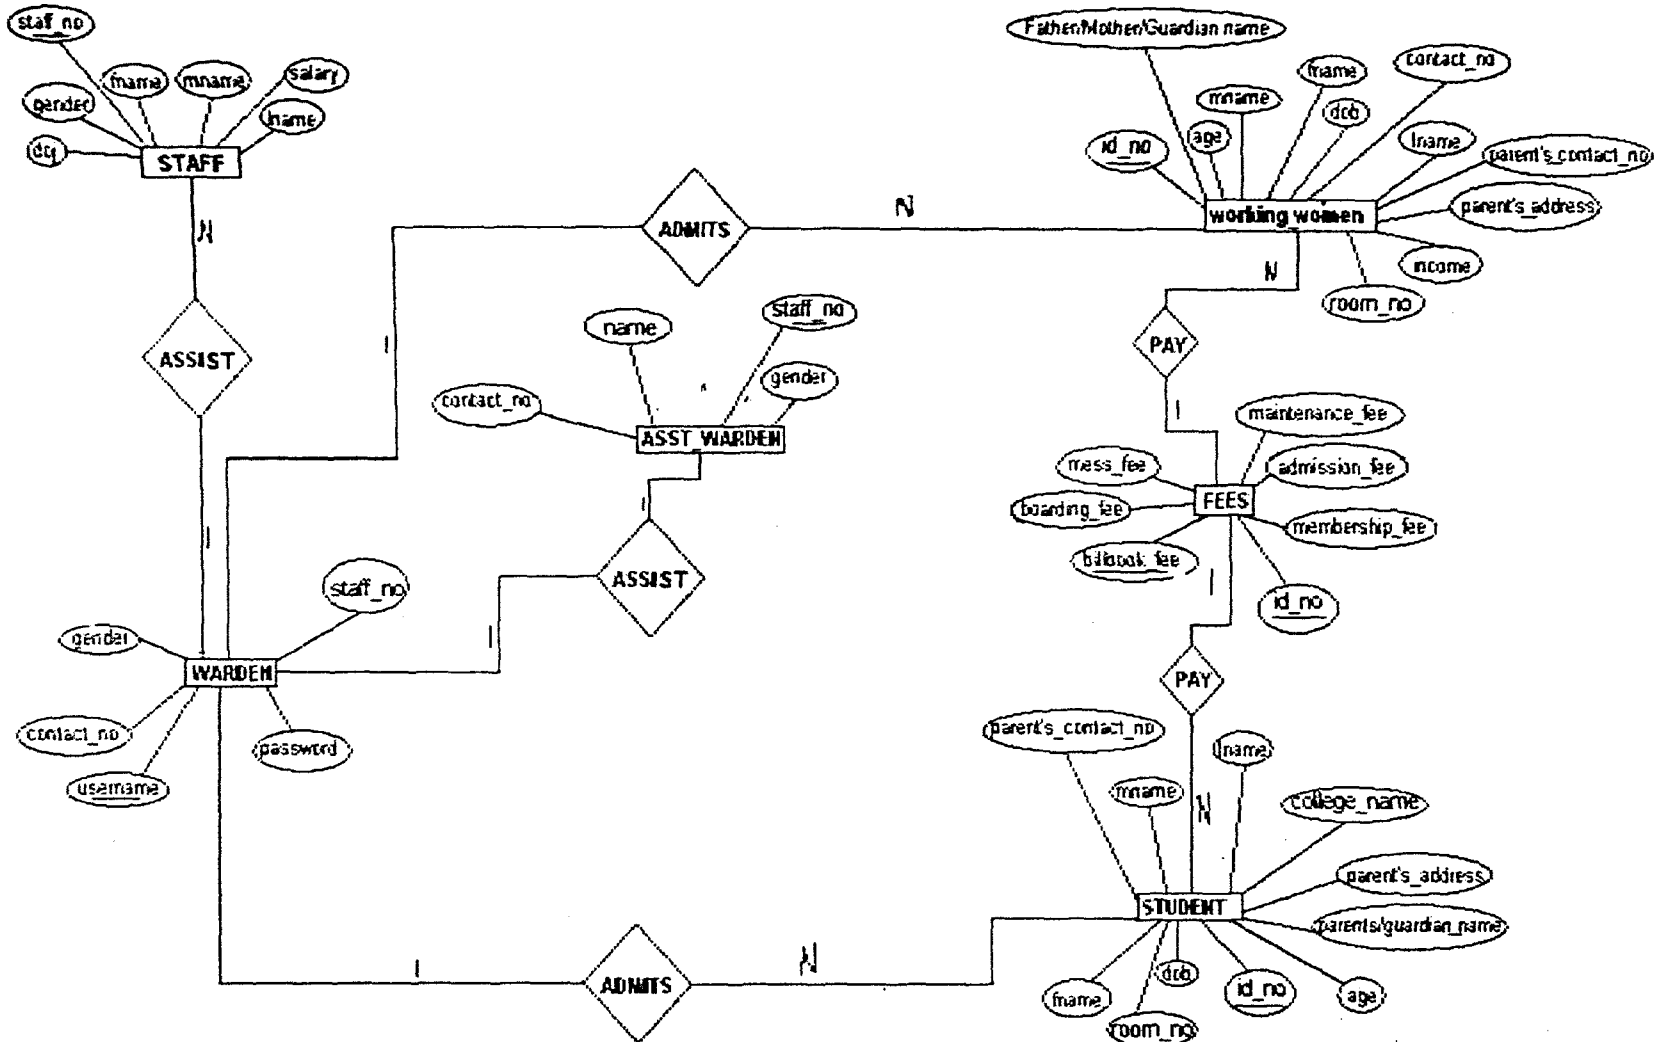

Hardware:

Processor: Intel Pentium and above

HDD: 2GB minimum

RAM: 512 minimum
